Bubble Tube Maintenance

Proudly manufactured in the U.S.A by

© Copyright 2010-2013 Experia All rights reserved.

It has been designed to provide many, many years of trouble-free use. However, it is necessary to properly maintain your bubble tube for maximum life.

Without proper maintenance, the life span if the bubble tube can be greatly shortened. This maintenance log is a critical part of maintaining the warranty on your bubble tube, without which your warranty may be voided.

WARNING: MOVING OR LIFTING THE BUBBLE TUBE WHILE FULL WILL VOID YOUR WARRANTY

Cleaning and Maintenance

The unit (exterior base) should be cleaned with a damp soft cloth. A non abrasive cleaning agent may be used for stubborn stains. Be sure no liquid enters the base of the unit. Use <u>only</u> a damp, soft cloth to clean the exterior column.

All bubble tubes require that the water in them be changed every 6 – 12 weeks (depending on the quality of your water supply) to slow the build up of any bacteria. A shorter interval may be necessary, depending on your water supply. Additionally, BCB Solution (see below) should be added to slow the build-up of bacteria and/ or algae.

Changing Bubble Tube Water

Note: We recommend wrapping a towel around the base of the clear column before removing the water. In the event of a spill, this offers a little extra protection against water entering the base.

To change the water in an Experia LED Bubble Tube follow these instructions.

- 1. Remove the lid off the column.
- 2.Use a length of hose (4 yards minimum for a 80" column) to siphon the water out of the column into a bucket. Empty the bucket and repeat.

Tip: To *make this process easier*, you can purchase an Experia pump-and-hose kit online at www.experia-usa.com and type "pump" into the search box.

You can purchase BCB Solution at our website by typing "BCB" into the search box.

Bubble Tube Maintenance Worksheet

Date of Purchase: Date of first use:

Please enter the date, and check whether a water change was done, BCB solution was added, or both (recommended).
Refer to the instruction sheet provided with your hubble tube. If you do not have one please email

	Water	BCB Solution	
Date	Change	Added	Other (explain)
1/1/2015 (Example)	✓	✓	Other (explain) Water had a slight tinge of green. Change again in 3 weeks.
